

# MIVIC HIROSE APPOINTED LHHRC EXECUTIVE ADMINISTRATOR

Mitch Katz, Director of Public Health

I am pleased to announce the appointment of Mivic Hirose, Chief Nursing Officer at LHHRC, as the hospital's new Executive Administrator. Mivic's 25 years as a nurse and administrator make her well positioned to assume the top leadership role at LHH, left by the sudden death of John Kanaley last month.

She becomes the first Filipino-American hospital director in San Francisco and joins Sue Currin, CEO of SFGH, as one of only two women in the City to become top administrators of a hospital.

I have worked with Mivic for many years and have great confidence in her ability to lead LHHRC as it transitions into its new facility next year. She has a proven commitment to achieving the highest levels in quality of care, quality of life and independence for each resident, whether at Laguna Honda Hospital or in the community. I know the LHHRC staff and all of the DPH family join me in welcoming Mivic into her new position.
